

## ZOO INTERCHANGE HIGHWAY STRUCTURES CSS

Milwaukee, WI

Barrientos Design was contracted to lead the Community Sensitive Solutions (CSS) process for the Zoo Interchange Project. The project included the aesthetic treatments for all highway structures included bridge columns, overpass columns, retaining wall textures, fencing and colors.

The detailed CSS process included numerous public information sessions as well as close collaboration with project engineers and the DOT Bureau of Structures.

**Budget:** \$2.3M

**Completion:** Expected Construction 2013

**Client:** Wisconsin Department of Transportation
